

EVH introduces 5150III LBX-S with versatile two-channel tone in a compact 15-watt design

Scottsdale, Ariz. (September 1, 2020) – EVH® today announces the all-new **5150III® 15W LBX-S HEAD**.

The **LBX-S** packs legendary tone into a diminutive 15-watt amp. A cross between the LBXI and the LBXII, the seductively dark stealth head blends the Green “clean” channel with the Red “full burn” channel for a sonically diverse soundscape — from pristine cleans that soar to crushingly brutal high-gain tones.

Armed with four JJ ECC83S (12AX7) preamp tubes and two JJ EL84 power tubes, this easy-to-carry lunchbox head also includes dual-concentric gain and volume controls for precise and independent control of each channel, as well as shared EQ presence and resonance controls. Dial in a crystal clean tone or turn the gain up for a bluesier counterpart on the Green channel, and hit the one-button footswitch to select the Red channel for a no-nonsense, scorching overdriven tone that sets leads ablaze with sustain for days.

Bedroom players can utilize the 1/4-power switch to reduce the head to 3.5 watts and avoid disturbing the rest of the household, while studio and live musicians can leverage this same feature to turn up the head for a squeezed and spongy tone. This amp is also equipped with dual parallel speaker output jacks, effects loop and one-button footswitch.

Boasting exceptional construction, fierce tone and distinctive style, the wildly fun LBX-S Head features a black front panel and black metal grill cage with the Stealth EVH-striped motif. Unique to the LBX-S, this head also has internal LED backlighting that illuminates the cage in either green or red to match the selected channel. Similar to all Stealth models, the LBX-S has also been modded to include an adjustable bias control port.

ABOUT FENDER

Since 1946, Fender has revolutionized music and culture as one of the world's leading musical instrument manufacturers, marketers, and distributors. Fender Musical Instruments Corporation (FMIC)—whose portfolio of owned and licensed brands includes Fender®, Squier®, Gretsch® guitars, Jackson®, EVH®, Charvel®, Bigsby®, and PreSonus® – follows a player-centric approach to crafting the highest-quality instruments and digital experiences across genres. Since 2015, Fender's digital arm has introduced a new ecosystem of products and interactive experiences to accompany players at every stage of their musical journey. This includes innovative apps and learning platforms designed to complement Fender guitars, amplifiers, effects pedals, accessories, and pro-audio gear, and inspire players through an immersive musical experience. FMIC is dedicated to unlocking the power of musical expression for all players, from beginners to history-making legends. In 2026, Fender celebrates 80 years of giving artists "wings to fly," carrying on the vision of its founder, Leo Fender, and connecting players through a shared love of music.
