

PRESONUS® RELEASES NOTION® MOBILE SUPPORTING ON-THE-GO MUSIC CREATION, COMPOSITION

**ALL-NEW MOBILE VERSION IS A FREE CROSS-PLATFORM MUSIC
NOTATION APP FOR TABLETS, MOBILE DEVICES, DESKTOPS**

HOLLYWOOD, Calif. (Oct. 18, 2022) — PreSonus Audio Electronics, Inc. today announced the global launch of Notion® Mobile, a free, cross-platform music composition tool that builds on the legacy of TEC Award-winning Notion for iOS. Notion Mobile is available for iOS, iPadOS, macOS, Android, Windows, Chrome OS and Fire OS devices, enabling composition, editing and playback of both standard music notation and tablature on any combination of devices. Sketch out a melody on an iPhone, tap in percussion on a Kindle Fire, then finish it on a Chromebook. Users can transfer scores wirelessly between devices running PreSonus Notion Mobile, Notion desktop and Studio One™ — without losing work in the transition between devices.

Like Notion desktop, Notion Mobile is famed for its realistic audio playback, performed with real piano and orchestral samples recorded by the London Symphony Orchestra at Abbey Road Studios, along with outstanding sampled guitar, bass, drums and other popular instruments. An extensive library of Notion add-on sounds is available for purchase or join PreSonus® Sphere to unlock additional features and sounds, plus get licenses for Notion, Studio One Professional, and so much more.

Notion Mobile provides unlimited staves and full editing features, as well as an intuitive interactive piano keyboard, guitar fretboard and drum pad for fast, convenient entry of

pitches, drum parts and guitar fingerings. A chord library makes it easy to enter chord names and voicings. Play in parts, tap them in or use optional handwriting recognition, which now works on a phone as well as a tablet or computer. The customizable user interface enables users to adjust the size of the icons, show a dark or light score area, place the note palette on the right or left side, increase the width of the piano keyboard keys and more. A palette of articulations, expressions, and dynamics can be used to add realism and the multi-track mixer allows users to create the perfect balance between instruments.

“Notion Mobile makes music composition and notation accessible to educators, students, and music enthusiasts on-the-go,” says Chris Swaffer, product manager for Notion. “We’re excited to provide this truly cross-platform notation application for a new generation of composers, instrumentalists and songwriters.”

Notion Mobile and its core sounds are free. The optional Feature Bundle adds a more expansive sound library, plus handwriting recognition, multi-format file export, and wireless network transfer between any mobile or desktop device running Notion Mobile, Notion desktop or Studio One. PreSonus Sphere members are provided with the Feature Bundle as part of their membership for any device they own as well as Notion for desktop, every Notion add-on sound, Studio One 6 Professional and much more. ABOUT NOTION MOBILE MUSIC COMPOSITION SOFTWARE (FREE): Now included in PreSonus® Sphere memberships, the new version of PreSonus’ Notion Mobile music composition software is available for iOS, iPadOS, macOS, Android, Windows, Chrome OS

and Fire OS devices, enabling composition, editing, and playback of both standard music notation and tablature on any combination of devices. Transfer scores wirelessly between devices running PreSonus Notion Mobile, Notion desktop and Studio One™. Play back using real piano and orchestral samples recorded by the London Symphony Orchestra at Abbey Road Studios, along with outstanding sampled guitar, bass, drums and other popular instruments.

ABOUT FENDER MUSICAL INSTRUMENTS CORPORATION:

Since 1946, Fender has revolutionized music and culture as one of the world's leading musical instrument manufacturers, marketers and distributors. Fender Musical Instruments Corporation (FMIC)—whose portfolio of owned and licensed brands includes Fender®, Squier®, Gretsch® guitars, Jackson®, EVH®, Charvel®, Bigsby® and PreSonus® – follows a player-centric approach to crafting the highest-quality instruments and digital experiences across genres. Since 2015, Fender's digital arm has introduced a new ecosystem of products and interactive experiences to accompany players at every stage of their musical journey. This includes innovative apps and learning platforms designed to complement Fender guitars, amplifiers, effects pedals, accessories and pro-audio gear, and inspire players through an immersive musical experience. FMIC is dedicated to unlocking the power of musical expression for all players, from beginners to history-making legends. In 2021, Fender celebrated 75 years of giving artists "wings to fly," carrying on the vision of its founder, Leo Fender, and connecting players through a shared love of music.
