

Gretsch announces new limited edition Falcon, Tenny and Penguin guitars

Scottsdale, Ariz. (February 2, 2021) – Gretsch® adds new limited models for 2021 with the **G6136T LIMITED EDITION FALCON™ WITH BIGSBY®**, **G6119TG-62RW-LTD LIMITED EDITION '62 ROSEWOOD TENNY WITH BIGSBY® AND GOLD HARDWARE** and the **G6134T LIMITED EDITION PENGUIN™ KOA WITH BIGSBY®**.

Gretsch Limited Edition models elevate our most celebrated designs with striking finishes and upgraded features and appointments. Stunning in style and sound, these small batch runs are designed for players seeking a more individualized edge.

The Gretsch Falcon is one of the most-desired guitars in production today, and the all-new **G6136T LIMITED EDITION FALCON™ WITH BIGSBY®** in an enchanting Two-Tone Copper/Sahara Metallic takes it to the next level.

This magnificent bird features a pair of TV Jones® Ray Butts Ful-Fidelity pickups that generate powerful tone and unparalleled dynamic, as well as 1959 trestle bracing for that huge hollow body sound. The control complement—separate bridge and neck volume controls, three-way toggle pickup switching, no-load master tone and master volume—allows for infinite tonal variations. The new Gretsch “Squeezebox” paper-in-oil caps add smooth vintage tone while the treble bleed circuit lets the guitar retain all of its tasty clarity when rolling the volume control down.

A 12”-radius ebony fingerboard with 22 medium jumbo frets and striking mother of pearl Neo-Classic™ thumbnail inlays tops a maple neck with a comfortably familiar standard

“U”-shaped profile for fluidly easy playing. The Bigsby B6CP vibrato tailpiece and pinned “rocking” bar bridge with ebony base combine with the bone nut for maximum tuning stability. The Bigsby tailpiece is now string-through, making it quicker (and easier) to change strings as well as providing increased vibration transfer for enhanced sustain.

A bold visual and sonic statement, the **G6136T** presents total sophistication—from the Grover® Imperial™ locking tuning machines and jeweled G-arrow control knobs to the silver sparkle bound neck, body and F-holes, gloss urethane finish, chrome hardware and silver vintage thick plexi pickguard with Gretsch and Falcon logos.

AVAILABLE FEBRUARY 2021.

A nod to the early era of rock ‘n’ roll, the **G6119TG-62RW-LTD LIMITED EDITION ‘62 ROSEWOOD TENNY WITH BIGSBY® AND GOLD HARDWARE** is a solid performer with the standout sound and stunning style that have made Gretsch a household name. Highly resonant with rosewood top, back and sides, the unique voice of this guitar cuts through any mix, standing out from the crowd with That Great Gretsch Sound!™

A pair of rich-sounding TV Jones® TV Classic™ humbucking pickups creates unmistakable vintage snap and guttural growl with lively response, reflecting the natural voice of the guitar. Parallel tone bars connect the top and back of this guitar for authentic vintage tone. Traditional Gretsch controls—individual pickup volume controls, master volume, standby toggle switch and the classic three-position tone toggle switch—allows for blending and shaping the pickups’ sound for countless tonal variations. The new Gretsch “Squeezebox” paper-in-oil capacitors generate incredibly silky vintage high end. A “rocking” bar bridge with pinned rosewood base reacts in tandem with the Bigsby B6G vibrato tailpiece for stable tuning while the vintage-style bone nut lets the strings slide freely without binding in the slots. The standard “U”-shaped maple neck bears a 12”-radius rosewood fingerboard with 22 vintage small frets for a classic playing experience that works with any style.

An exquisite instrument inspired by one of guitar’s greatest eras, the **G6119TG-62RW-LTD LIMITED EDITION ‘62 ROSEWOOD TENNY WITH BIGSBY® AND GOLD HARDWARE** features the classic aesthetics true Gretsch fans love—gold G-arrow control knobs and

Grover® Sta-Tite™ open-back tuning machines, aged white binding with black purfling, aged pearloid Neo-Classic™ thumbnail inlays, rosewood headcap, durable gloss urethane finish and black pickguard with Gretsch logo.

AVAILABLE MARCH 2021.

The **G6134T LIMITED EDITION PENGUIN™ KOA WITH BIGSBY®** offers a tastefully elegant take on the rarest of Gretsch® birds.

The Penguin's chambered mahogany body with arched figured koa top captures harmonic richness by letting air resonate between the top and body for livelier and more articulate tone, while a pair of TV Jones® TV Classic™ pickups beautifully project bright, twangy notes with a hint of growl similar to late-1950s Filter'Trons. The result is an extraordinary voice ideal for distinctive rock 'n' roll licks, chiming country rhythms or articulate rockabilly riffs. A three-position pickup toggle switch, individual pickup volume controls, master volume and three-position tone toggle switch open up endless tonal possibilities.

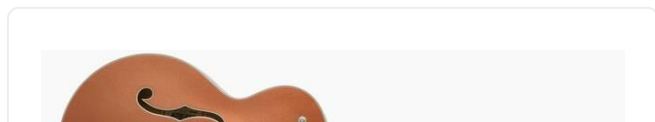

Its premium features also include a set mahogany neck, 12"-radius ebony fingerboard with 22 medium jumbo frets, Bigsby B3 tailpiece, rocking bar bridge with pinned ebony base, Grover® Imperial™ tuners and bone nut.

Richly appointed, this limited edition beauty is decked out in a Natural finish with matching figured koa headstock, tortoiseshell body and neck binding, mother of pearl Neo-Classic™ thumbnail inlays, jeweled arrow control knobs, tortoise pickguard and gold hardware.

AVAILABLE APRIL 2021.
