

PRESONUS LAUNCHES ULTRA-PORTABLE AUDIOBOX GO™ AUDIO INTERFACE

PROVIDES ALL THE CONNECTIONS NEEDED TO RECORD ON THE MOVE OR IN A HOME STUDIO

BATON ROUGE, LA. (Feb. 8, 2022) — PreSonus Audio Electronics, Inc. today announced the global launch of the AudioBox GO, the smallest, lightest, most portable PreSonus® audio interface yet. The perfect solution for musicians and producers seeking an easy and accessible way to start their journey in home music recording or content creation, AudioBox GO is compact enough to throw in a gig bag and powerful enough to be the centerpiece of a home studio. The bus-powered AudioBox GO connects via USB-C directly to Apple and Android mobile devices, as well as desktop and laptop computers, and is class-compliant, requiring no drivers or special applications, allowing users to hit record and begin creating.

Designed to meet the needs of those new to recording, as well as those looking for a flexible, mobile solution, AudioBox GO is loaded with connections and allows musicians to record at up to 24-bit, 96 kHz resolution for professional results. The combo mic/line combo input can be used to connect microphones or synths and features PreSonus' proprietary XMAX-L preamp design. The result of more than 25 years of recording know-how, the XMAX-L delivers clean, articulate sound with low noise, optimized for bus power. A second instrument input is provided to track guitar or bass simultaneously. In addition, a pair of balanced TRS, ¼-inch outputs feeds studio monitors, and a high-powered headphone output provides performance monitoring at zero-latency.

AudioBox GO is a complete recording solution right out of the box and includes a license for PreSonus' Studio One® Prime recording software for macOS and Windows and the Studio Magic software suite, an impressive collection of virtual instruments, effects plug-ins and more. It also is compatible with virtually every recording application for macOS, Windows, iOS, iPadOS and Android, including PreSonus' 32-track Capture® for iPad and free 2-track Capture® Duo (for iPad).

The AudioBox GO is available now for a U.S. street price of \$79.95. To learn more about AudioBox GO, please visit www.presonus.com/products/AudioBox-Go. ABOUT FENDER

Since 1946, Fender has revolutionized music and culture as one of the world's leading musical instrument manufacturers, marketers, and distributors. Fender Musical Instruments Corporation (FMIC)—whose portfolio of owned and licensed brands includes Fender®, Squier®, Gretsch® guitars, Jackson®, EVH®, Charvel®, Bigsby®, and PreSonus® – follows a player-centric approach to crafting the highest-quality instruments and digital experiences across genres. Since 2015, Fender's digital arm has introduced a new ecosystem of products and interactive experiences to accompany players at every stage of their musical journey. This includes innovative apps and learning platforms designed to complement Fender guitars, amplifiers, effects pedals, accessories, and pro-audio gear, and inspire players through an immersive musical experience. FMIC is dedicated to unlocking the power of musical expression for all players, from beginners to history-making legends. In 2026, Fender celebrates 80 years of giving artists "wings to fly," carrying on the vision of its founder, Leo Fender, and connecting players through a shared love of music.
