

NEW PRESONUS AIR XD WIRELESS LOUDSPEAKERS RAISE THE BAR WITH UNMATCHED POWER AND CLARITY

**PREMIUM SOUND QUALITY AND EXTENDED RANGE TWS
BLUETOOTH® BRING FLEXIBILITY FOR A WIDE RANGE OF
APPLICATIONS**

BATON ROUGE, LA (October 14, 2025) — [PreSonus Audio Electronics, Inc.](#) today introduces the **Air XD Series**: a new generation of loudspeakers and subwoofers engineered to deliver exceptional performance across mobile and small-to-midsized venues. Featuring powerful Class D amplification with 1,500W for Loudspeakers and 2,000W for Subwoofers, TWS Bluetooth® wireless stereo pairing, onboard mixing and extensive DSP tuning options with onboard EQ, the Air XD Series delivers unmatched sound quality with remarkable power and punch. Built for versatility and reliability, these speakers offer flexible connectivity that deliver consistently for DJs, jam rooms, touring bands and houses of worship. These speakers are available in 10", 12", 15" full-range models and 15" or 18" subwoofers, offering a diverse selection for intimate gigs to mid-sized events – delivering the power, clarity and flexibility that today's performers need.

The Air XD Series is built for mobile performers, venues and system integrators who demand powerful performance without the unnecessary complexity. Whether flying, pole-mounting, ground-stacking, or using the Air XD as a floor wedge, the Air XD Series delivers the versatility and precision control that today's audio professionals require. All Air XD models feature True Wireless Stereo (TWS) Bridge Mode, allowing users to pair two

speakers via Bluetooth to create a stereo system without any additional cabling, making them an ideal solution for corporate events and parties. True to PreSonus' mission of making professional audio equipment accessible, the Air XD Series continues to democratize high quality audio reproduction for the everyday creator and performer. Engineered for extended-definition, these speakers excel in any scenario.

"In demanding live sound environments, loudspeakers need to deliver exceptional performance," said Adrian Haselhuber, VP of PreSonus Hardware. "The new Air XD Series outperforms everything in its class due to its professional-grade audio, reliable connectivity and intuitive control. These speakers are built road-ready and designed for easy setup and transport, so they don't just keep up with performers, they give them a competitive edge."

THE AIR XD 2-WAY ACTIVE EXTENDED DEFINITION LOUDSPEAKERS (10, 12 AND 15)

feature custom low-frequency drivers paired with high-performance compression drivers that deliver up to 134 dB SPL with deep low-end and detailed highs. The loudspeakers feature enlarged voice coils in the LF drivers to ensure more efficient power handling and extended low-frequency response down to 40 Hz while the PEEK diaphragms in the HF drivers provide precise, ultra-durable performance with clear, detailed highs. Each full-range loudspeaker is driven by 1,500W of efficient Class D amplification and includes onboard DSP presets, ± 10 dB EQ and performance tuning modes for speech, music playback, FOH or monitor use. Additionally, a full-color 2.6" LCD screen makes metering and system adjustment fast and easy. Air XD speakers offer two mic/line connections and an aux input. All Air XD models include Bluetooth streaming with true wireless stereo capability. TWS Bridge Mode provides the ability to pair two speakers wirelessly for a clean, cable-free stereo setup.

THE AIR XD ACTIVE EXTENDED DEFINITION SUBWOOFERS (15 AND 18) deliver powerful, extended low-end for any application featuring 2,000W Class D amplification for clean, consistent output and headroom. Thanks to the subwoofers advanced DSP which includes variable crossover filtering, alignment delay, cardioid and end-fire array presets and the exclusive "Mo' Bass" enhancement, the subwoofers offer precise tuning and extra punch. Plus, the full-color LCD screen provides easy access to metering, EQ and system presets. The Air XD Subwoofers feature built-in Bluetooth with TWS Bridge Mode, allowing the ability to stream music and wirelessly link two units for instant stereo sound with no

cables required. Featuring flexible routing options, rugged wood enclosures featuring ergonomic handles and ground-stacking provisions and caster mounts, AIR XD subs are designed for seamless integration and maximum portability in live, install and mobile setups.

AIR XD 10 2-Way Active Extended Definition Loudspeaker (\$629.99 USD, £429.00 GBP, €499.00 EUR, \$1,057.99 AUD, ¥66,880 JPY) Compact yet powerful, the PreSonus AIR XD 10 active loudspeaker delivers extended-definition sound with 1,500W of Class D power, TWS Bluetooth stereo capability, and flexible connectivity—perfect for mobile gigs or permanent installs. The PreSonus AIR XD 10 active loudspeaker combines big sound with a compact footprint, delivering an extended frequency range and up to 130 dB of crystal-clear output. Powered by 1,500W of efficient Class D amplification, its 10-inch custom woofer and 1-inch HF compression driver offer deep, punchy lows and detailed highs—all in a lightweight enclosure that fits easily in a car’s backseat With two mic/line combo inputs, an aux input, and a mix output, the AIR XD 10 supports a wide range of sound sources.

AIR XD 12 2-way Active Extended Definition Loudspeaker (\$749.99 USD, £499.00 GBP, €599.00 EUR, \$1,175.99 AUD, ¥74,910 JPY) Powerful yet portable, the PreSonus AIR XD 12 delivers extended-definition sound with a 12-inch woofer, 1.35-inch tweeter, 1,500W of Class D power, and TWS Bluetooth stereo—ideal for mobile gigs or permanent installs. The compact and lightweight PreSonus AIR XD 12 delivers powerful, high-fidelity sound with an extended frequency response—all in an enclosure small enough to fit in the backseat of your car. Featuring a 12-inch woofer and 1.35-inch high-frequency compression driver, it’s driven by 1,500W Class D power, reaching up to 132 dB with remarkable punch and clarity.

AIR XD 15 2-way Active Extended Definition Loudspeaker (\$879.99 USD, £579.00 GBP, €699.00 EUR, \$1,292.99 AUD, ¥82,390 JPY) Powerful and portable, the PreSonus AIR XD 15

features a 15-inch woofer, 1.35-inch tweeter, and 1,500W of Class D power with TWS Bluetooth stereo—perfect for mobile gigs or permanent installs in a compact, lightweight design. The compact, lightweight PreSonus AIR XD 15 delivers powerful, high-fidelity sound with an extended frequency response—all in a portable enclosure that easily fits in the backseat of a car. Equipped with a 15-inch woofer and 1.35-inch high-frequency compression driver, it's powered by 1,500W of Class D amplification, reaching an impressive 134 dB with exceptional punch and clarity. A large color LCD provides precise metering and easy access to onboard system tuning, EQ, and presets. Quickly optimize sound for front-of-house, stage monitors, music playback, speech clarity, or enhanced low-end warmth. With pro-grade features, powerful output, and flexible connectivity, the AIR XD 15 is a versatile choice for mobile and installed sound applications requiring clarity, volume, and portability.

AIR XD Sub 15 Active Extended Definition Subwoofer (\$1,249.99 USD, £749.00 GBP, €949.00 EUR, \$1,999.99 AUD, ¥132,440 JPY) Perfect for mobile rigs or permanent installs, the PreSonus AIR XD Sub 15 delivers up to 128 dB of powerful, accurate low-end with a 15-inch driver, 2000W Class D amp, variable crossover filter, and DSP presets for versatile system integration and array configurations. Designed for both mobile setups and permanent installations, the PreSonus AIR XD Sub 15 active subwoofer delivers deep, accurate low-end performance that perfectly complements any full-range PA—especially the AIR XD-series. Its 15-inch low-frequency driver with a 3-inch voice coil is powered by a robust 2000W Class D amplifier, producing clean, powerful bass down to 32 Hz and output levels up to 128 dB. Despite its high output, the AIR XD Sub 15 is compact, lightweight, and road-ready. Housed in a durable 15mm wood enclosure, it includes ergonomic side handles, ground-stacking features, and built-in hardware for the included caster kit—making it easy to transport and deploy in any environment.

AIR XD Sub 18 Active Extended Definition Subwoofer (\$1,379.99 USD, €929.00 GBP, €1,099.00 EUR, \$2,351.99 AUD, ¥150,590 JPY) Designed for both mobile and installed systems, the PreSonus AIR XD Sub 18 delivers up to 130 dB of powerful, accurate low-end with an 18-inch driver, 2000W Class D amp, variable crossover filter, and DSP presets for seamless integration and advanced array configurations. Equally suited for mobile systems and fixed installations, the PreSonus AIR XD Sub 18 active subwoofer delivers powerful, accurate low-end performance and integrates seamlessly with any full-range PA—especially the AIR XD-series. Its 18-inch woofer with a 3-inch voice coil is powered by

2000W of Class D amplification, providing deep, punchy bass down to 33 Hz and output levels up to 130 dB. The AIR XD Sub 18 includes two XLR/ $\frac{1}{4}$ " combo inputs with direct outputs for flexible signal routing. Built-in Bluetooth with TWS Bridge Mode enables reliable wireless audio streaming and stereo pairing with a second speaker—ideal for mobile events, parties, and corporate setups. Despite its size and output, the AIR XD Sub 18 is compact, portable, and rugged. Its 15mm tour-grade wood enclosure includes ergonomic side handles, integrated caster mounts, and ground-stacking provisions—making it easy to transport and deploy for both touring and installed sound environments.

ABOUT PRESONUS AUDIO ELECTRONICS, INC.

PreSonus Audio Electronics Inc. is the leading designer and manufacturer of recording and live-sound hardware and software solutions that solve real-world problems for creatives of all levels. Founded in 1995 and headquartered in Baton Rouge, La., PreSonus® designs innovative audio tools for musicians, content creators, producers, and audio engineers, providing professional sound quality and features without sacrificing affordability. Today, PreSonus is an owned brand under Fender Musical Instruments Corporation (FMIC). While most guitar and bass players still plug into amplifiers, many also plug their instruments into interfaces, recording songs as well as using virtual amps and effects to create their sounds. With a shared passion for music and a commitment to innovation, FMIC and PreSonus are focused on delivering an ecosystem that seamlessly integrates hardware and software for an effortless end-to-end experience.
