

FENDER MUSICAL INSTRUMENTS CORPORATION UNVEILS NEW PRODUCT INNOVATIONS FOR SUMMER 2024 ACROSS ELECTRICS, ACOUSTICS AND ACCESSORIES

INTRODUCTIONS INCLUDE THE NEW LIMITED EDITION CALIFORNIA VINTAGE ANTIGUA ACOUSTICS RANGE, EXPANSION OF THE EYE-CATCHING SQUIER® AFFINITY SERIES AND A WIDE ARRAY OF NEW ACCESSORIES

HOLLYWOOD, Calif. (July 1, 2024) — 2024 has already been a stellar year for Fender Musical Instruments Corporation (FMIC). The company not only celebrated 70 years of their iconic Stratocaster® guitar, but also launched signature models from the likes of Blink 182's Tom DeLonge, Clash legend Joe Strummer and super-producer Raphael Saadiq, whilst continuing to cater to the everyday needs of seasoned guitarists and new players alike.

Today, the guitar manufacturer announces a slate of new products that demonstrate the industry-leading innovation and craftsmanship the brand has been synonymous with for nearly eighty years. Key highlights include; expansion of the Squier® Affinity Series, a new Antigua colourway for California Vintage acoustics, and a range of trailblazing new accessories such as the Telepath™ Wireless System, Bassman® effects pedals and various Strat® 70th memorabilia.

With ongoing dedication to innovate and expand their electric and acoustic guitars, alongside accessory offerings, FMIC continues to support and elevate players by providing them with all the tools they need to learn, create and hone their sound.

"2024 has already been an incredible year for innovation at Fender, and as you can see, we have no plans to slow down as we move into the second half of the year," said Justin Norvell, Executive Vice President, Product at FMIC. "With our 70th Anniversary Stratocaster® collection, we wanted to strike a balance between honoring tradition and catering to the needs of current players of all abilities, and the same is true with these latest product introductions. Our new Antigua California Vintage guitars, for example, are a nod to our past and caters to vintage aficionados as well as to players with modern sensibilities, whilst the Telepath™ Wireless System demonstrates that Fender is still at the cutting edge of development and craftsmanship, as it was in 1954."

"At Fender, our commitment as always is to empower an ever-growing community of players and creators, wherever they are on their guitar-playing journey," shared Tammy Van Donk, Executive Vice President FMIC Sales. "With that in mind, we're very excited to announce this diverse range of new products, which we're confident will provide our esteemed global dealer network with the catalog they need to cater to musicians of all kinds and across all genres."

AMPS

TONE MASTER '59 BASSMAN

Tone Master '59 Basman (\$1,499.99 USD, £1,429.00 GBP, €1,649.00 EUR, \$2,499.00 AUD, ¥ 220,000 JPY) The Tone Master '59 Bassman amplifier uses massive digital processing power to achieve a single remarkable feat: faithfully modeling the circuitry and 45-watt

power output of an original Bassman tube amp. Using a high-performance class D power amp to achieve the headroom and dynamics of the tube amp, the results is pure bassman tone that's virtually indistinguishable from the original.

This remarkable Fender technology is paired with the sparkle and touch sensitivity for four Jensen P-10R speakers, as well as player-centric additions like convolution spring reverb, a vintage/tight switch for smoother bass response and a post-power amp effects loop. Other features include an output power selector for full power and five attenuated settings, impulse response (IR) XLR line output for detailed cabinet simulations, mute switch, and lightweight pine cabinet.

FENDER ACCESSORIES

TELEPATH™ WIRELESS SYSTEM

Telepath™ Wireless System (\$199.99 USD, £169.00 GBP, €199.00 EUR, \$349.00 AUD) The Telepath™ Wireless System delivers full- frequency wireless audio with sparkling clarity across any stage. Offering uncompromised tone and reduced interference from other devices, the Telepath transmits signal across the 5.8GHz frequency band - avoiding the overcrowded 2.4 GHz bandwidth used by most wireless devices. Auto pairing technology takes the strain out of setup, linking the transmitter and receiver in mere seconds after startup. Setting the standard for ease of use and compatibility, the Telepath features an articulating input plug to fit a wide variety of instrument jacks while the active/passive switch accommodates the output signal of guitars, basses, acoustic- electrics, active instruments, and more. Built in cable tone simulation maintains the natural feel of your instrument and multi-unit pairing means you can swap instruments in seconds without unplugging. Cut the cables from your rig and enjoy up to 70 feet of wireless freedom with low latency and unparalleled signal strength.

BASSMAN PEDALS

Bassman® pedals have all your basses covered. Drawing inspiration from the original tube amp line that laid way for Fender's sub-sonic signal processing, the Bassman pedal line

hosts a collection of meticulously crafted analog and digital circuits all curated from the ground up for bass-centric tonal expansion.

Bassman® Driver (\$99.99 USD, £94.99 GBP, €109.00 EUR, \$179.00 AUD, ¥ 12,650 JPY)

Conjure varying shades of gain, from light tube- like breakup to hi-gain chunk, while keeping your low end intact. Utilizing a complement of JFET circuitry and dynamic clipping stages, the Bassman Driver emulates the behavior of a bass tube amp driven to breakup. Flick the voice switch into the up position to kick in an additional layer of clipping for a heavy modern distortion voicing. Sculpt your tone further using the mids switch, offering two dialed-in levels of growl, and an internal tone control to set the high frequency content to your liking. The blend control keeps your low end solid by blending body and dynamics from your clean tone back into the mix.

Bassman® Fuzz (\$99.99 USD, £94.99 GBP, €109.00 EUR, \$179.00 AUD, ¥ 12,650 JPY) Thick and wooly bass fuzz for the ages: cramming decades of bass fuzz tones into a small footprint, the Bassman Fuzz pedal offers two voices of speaker-pumping grit and all the right controls to keep your low end solid. Beyond offering fur drenched, riff-ready gain, this buffer- friendly fuzz can be tamed to balance with your clean lows using the three-position focus switch and blend knob. Select where the fuzz sits in the mix from three focus frequencies: full frequency band, just the mid and high frequencies, or high frequencies only – with each setting leaving plenty of room to blend in the right amount of your clean signal underneath the fuzz.

Bassman® Delay (\$199.99 USD, £109.99 GBP, €129.00 EUR, \$219.00 AUD, ¥ 15,400 JPY)

Enter the world of subsonic soundscapes with delay engineered for bass. The Bassman Delay brings delay to the low end wielding two professional DSP algorithms designed specifically to repeat bass signal. Select between smooth analog repeats or crisp digital delay tones with a flick of the type switch, while the time and feedback controls determine the delay time and number of repeats. Shape the low frequency presence in your delay repeats using the low switch, letting you decide if your delays fade out lightly on top of your signal, keeping the low end clear, or duplicate the full signal for beat- repeat like waves of bass. Delve into the depths of ambience and find exciting new percussive grooves with the Bassman Delay.

Bassman® Reverb (\$199.99 USD, £109.99 GBP, €129.00 EUR, \$219.00 AUD, ¥ 15,400 JPY)

Previously reserved for studio technicians, applying the right reverb to your bass brings depth and natural space to your tone. The Bassman Reverb takes these studio tricks to your pedal board in a compact format with two professional reverb DSP algorithms tailored specifically for bass instruments. This reverb pedal specializes in delivering ambience while keeping low-end transients clear, thanks to the low cut control which removes low frequencies from the reverb trails to prevent muddiness. Add additional clarity to your groove using the pre- delay switch to introduce a slight delay between each note and its reverb trail. Whether you're looking for a subtle room ambience or pad-like swells of bass, the Bassman Reverb is here to deliver.

Bassman® Compressor (\$99.99 USD, £94.99 GBP, €109.00 EUR, \$179.00 AUD, ¥ 12,650 JPY)

A no fuss professional compressor tailored specifically for bass instruments, the Bassman Compressor focuses on ease-of-use and great tone. Beneath its simple control set, this compact pedal employs smooth RMS compression – the same compression circuitry used in the most prominent studio rack compressors. The ratio and release switches each offer two meticulously dialed in presets to coax the most out of your bass with minimum stress, while the rest of your compression settings are handled using the straightforward level and compression controls. Use the blend control to inject fullness and dynamics from your clean signal back into the mix for the perfect balance of compression and feel.

STRAT 70th ANNIVERSARY ACCESSORIES

For 70 years the Stratocaster® has been a beacon for players who see some of their own rebellious spirit in this revolutionary guitar. Once viewed as unconventional, the Strat is now ubiquitous – a testament to its perpetual innovation, incredible versatility and visionary design.

70th Anniversary Pick Tin - 12 Picks (\$19.99 USD, £16.99 GBP, €19.99 EUR, \$29.00 AUD, ¥ 3,190 JPY)

Celebrate the 70th Anniversary of this beloved instrument with the 70th Anniversary Pick Tin. Stamped with the original logo dies used in the 1950's on the first Fender® guitar picks, this pick tin contains 12 medium celluloid picks in classic tortoiseshell. Celluloid is a premier pick material and has been the cornerstone of the Fender pick collection for decades. Celluloid picks give the traditional feel and a warm, round musical

tone. The traditional 351 shape, Fender's most popular pick design, is a perfect accessory for players of versatile styles and techniques. Pay tribute to the iconic 1954 Stratocaster® with this collector's tin.

70th Anniversary Poly Strap (\$32.99 USD, £29.99 GBP, €34.99 EUR, \$49.00 AUD, ¥ 3,960 JPY) Celebrate the 70th Anniversary of the beloved Strat® with the 70th Anniversary Polyester Strap. Adorned with the Anniversary Logo, this printed polyester strap includes a retro striped design and leather ends for ultimate comfort and playability.

10' Anniversary Instrument Cable (\$39.99 USD, £25.99 GBP, €29.99 EUR, \$65.00 AUD, ¥ 3,850 JPY) Celebrate the 70th Anniversary of the beloved Strat® with the 10' Anniversary Cable. A faithful recreation of the original instrument cable included as case candy with the 1954 Stratocaster®, this cable features a weathered gray PVC and vintage-correct cable end housing.

70th Anniversary '54 Stratocaster® Pickup Set (\$199.99 USD, £189.00 GBP, €219.00 EUR, \$399.00 AUD, ¥ 55,000 JPY) Specially voiced to reproduce the authentic sound of a vintage 1954 Stratocaster®, the 70th Anniversary 1954 Single-Coil Strat® pickups are full of the woody warmth and bell-like, crystalline tone that made Fender instruments famous. Their low-output design features authentic touches including beveled alnico 3 magnets, cloth-covered wire and vintage-correct shaped covers with softer top-corner radius. The 70th Anniversary 1954 Strat® pickups conjure authentic tones that sparkle and bark when pushed.

Stratocaster™ 70th Anniversary Limited Edition Ornament, 2024 (\$29.99 USD, £24.99 GBP, €29.99 EUR, \$45.00 AUD, ¥4.400 JPY) The Fender Stratocaster™, a hallmark of electric guitars, is celebrating 70 years. Since its introduction in 1954, the Stratocaster™ has been a favorite among countless guitarists across various genres, praised for its versatile sound and distinctive design. To commemorate this milestone, we will be releasing a limited edition, numbered holiday ornament. The Stratocaster™ 70th anniversary ornament will be a hit for music enthusiasts, collectors, and holiday gift givers. The perfect stocking stuffer or secret Santa gift!
