

Pulte Homes to Bring Elevated Living to Shrewsbury

Emerald Run by Pulte Homes, featuring townhome and condo living, is coming soon to Shrewsbury.

Pulte Homes is expanding in Greater Boston with the introduction of Emerald Run, the highly anticipated new-construction community soon arriving in the connected and charming town of Shrewsbury. Just west of Boston, Emerald Run will provide

prospective buyers with a variety of housing options, including elegant single-level condominiums with elevator access and beautifully designed two-story attached townhomes.

"We are incredibly excited to introduce Emerald Run to the vibrant town of Shrewsbury," said Ashton Khoury, vice president of sales for PulteGroup's New England Division. "This community presents a unique opportunity for homebuyers to experience innovative new construction in a truly desirable location. Our diverse floor plans, from elevator-accessed condos to spacious two-story townhomes, are thoughtfully designed to meet the changing needs and preferences of today's buyers."

Seamlessly blending natural beauty with everyday convenience, Emerald Run is designed for a lifestyle prospective buyers will love coming home to, such as Life Tested Floor Plans that prioritize natural light and open-concept designs. Homes will feature a mixture of luxurious Owner's Suites, flex rooms that can be customized to your lifestyle, garage parking, and private balconies.

Residents of Emerald Run will enjoy numerous amenities and features, including low-maintenance living and quick access to major routes. The community's scenic location is just minutes from downtown Shrewsbury's shopping, dining, and entertainment options, and it is conveniently located one mile from the commuter rail, offering an easy commute to Boston.

Prices for homes at Emerald Run will be announced soon and interest in this new community is expected to be strong. To stay up to date on important community announcements, we encourage interested homebuyers to join the VIP Interest List at Pulte.com/EmeraldRun.
