

Discover the scent of the summer season with the “Ritual of Seshen” – Rituals' newest Limited Edition

Beauty secrets of the Nile

Amsterdam, March 1st, 2026 - Luxury wellbeing brand Rituals Cosmetics proudly presents “The Ritual of Seshen”, their newest summer limited collection. The ancient Egyptians saw Seshen – the lotus flower that blooms at dawn from the mud – as a symbol of fresh starts and natural beauty. Just like the lotus, Rituals encourages you to begin each day with a fresh perspective, letting go of what no longer serves you.

This new collection symbolizes renewal and purity and invites you to embrace a mindful self-care routine, while drifting away to the calm, sunlit banks of the Nile. With its light, refreshing textures and summery scents, this is the perfect collection to renew your spring and summer routine.
